

DIRECTIONS FOR USE:

1. Shake well before using.
2. Avoid contact with metals and direct sunlight.
3. Wear safety glasses while working around batteries.
4. Check fluid level in each cell.
5. Add to battery according to chart.
6. Charge battery after treatment or continue with normal use. Allow 21 charge/discharge cycles for maximum effect.
7. Wash with soap and water to remove electrolyte.
